

## **Exhaust & Vacuum Systems**

### **Exhaust System**

Atlantis designs and manufactures various types of fume extraction and exhaust systems for various industrial applications for the purpose of creating a healthy working environment inside the factory. Our Fume Exhaust System is available with gas filters with activated carbon filters to prevent dangerous gases escaping in to the atmosphere.

These fume exhaust systems are very durable and require less maintenance for operating. We offer our fume exhaust system with specific designs as required by the customers. Apart from this, we are one of the most renowned Fume Extractor Manufacturers and Industrial Fume Extractor Suppliers in the industry.
